Weight Assisted Chin Dip

Price List: June 1, 2011

Model	Description	Weight Stack Assemblies		MSRP
		Resting Weight	Assistance Wt.	
XP-4000	Weight Assisted Chin Dip	250 lbs	150 lbs	\$ 4,495
Standard Color Choices				Optional Colors
Standard Paint Colors	Silver Gloss White Texture			\$125 per unit \$300 minimum

All prices are F.O.B. point of manufacture. Freight and installation charges are not included in these prices. All prices are subject to change without notice. This price list replaces all previous price lists. Paramount reserves the right to make design changes without notice. Paramount's standard warranty applies to all products.

NOTES - MODULAR SYSTEMS :

- MS Models shipped partially assembled. Final assembly required on-site. If requested by customer or required by carrier units shipped on skids or crates will require an additional cost. Please contact Paramount.
- Those Modular System models with 2 cable crossovers (MS-6000 & MS-12000) can be purchased with all 170 lb. stacks, all 250 lb. stacks or one crossover having the standard stack (170 lb.) and the other having the optional stack (250 lb.). See optional weight stack assembly prices above.
- The static resting weight of the cable crossover station and single cable column is 170 lb. per stack for the standard stack and 250 lb. per stack for the optional stack. As with all double pulley systems, the weight load resistance is reduced in half.
- When ordering the MS models please specify the location of Side A and Side B stations. This will ensure the correct alignment of the cable crossover weight stack assemblies. Contact Paramount for a Modular System schematic diagram for the positioning of your stations.
- For multiple configurations of MS series, please refer to the MS catalog to confirm your specific station requirements.

NOTES - WEIGHT ASSISTED CHIN-DIP:

- The XP-4000 ships assembled except for the weight plates. Contact Paramount if full crating is required.
